Dear David,

Enjoyed the meeting at St Lawrence the other evening concerning the idea of pedestrianisation in Ventnor High Street.

When in town yesterday I took the attached photo as it occurred to me that the Boots bus stop area on the High St. could form a perfect Plaza or town square for pedestrianisation adjoining the rest of the High Street traffic free area. I wasn't clear whether this part of the High Street is within the intended zone.

As you can see in the photo taken at 1pm the area captures a lot of sunshine, whereas the rest of the high street is more shaded.

Yours Sincerely
