

COMMUNITY ORCHARD - SIGNAGE

ENVIRONMENT AND
TRANSPORT COMMITTEE

PAPER C

4 NOVEMBER 2024

1) BACKGROUND

- a) At the Environment and Transport Committee meeting of 7 October, it was resolved to:
Create an information board to include the historical details and images provided by Cllr Cooper as well as a reference to the presence of an infra-red wildlife camera.

2) PROPOSAL

- a) An initial quotation has been sourced for designing the board with the historical details and images provided by Cllr Cooper. This would cost in the region of £250 plus VAT. The board would be mounted on an A1 frame and lectern which could be installed at the site.
However, the approximate cost of the installation is in the region of £1345 plus VAT or it can be delivered and not installed for an approximate cost of £940 plus VAT.
- b) It should be noted that the budget for the Community Orchard is £1000.

3) RECOMMENDATIONS

Members are recommended to:

Consider the budget implications of creating and installing an information board at the Community Orchard site.
